

# Appleton Environmental Policy

March 5, 2007

Environmental Management is a key component of our commitment to Operational Excellence. We commit to implementing companywide performance-driven environmental and chemical management systems which will strive to achieve world-class standards. We will integrate environmental management into our business decisions, will seek to continuously improve our environmental management, and will strive to reduce adverse environmental impacts throughout the Company through active management and annual reviews of our progress. As part of our environmental management system, we will comply with all applicable environmental legislation and regulation and with any other requirements we adopt.
